TC-AIMS II Fielding
NMIB/Site Survey Workshop

Fort Campbell

8 Sep 2004

Presented by
Mr. Jermaine McKinney
Mr. Clifford Williams

Workshop

- Capture MoA information
- Identify equipment distribution and organization structure by UIC
- Identify shipping location
- Data completion requirements
- Training schedule and student load
- Identify units to participant in SBT
- Local admin workshop requirements
- Identify facilities for equipment storage and setup
- Identify user and student qualification and registration
- Identify necessary detail to assist in equipment setup

TC-AIMS II Data Conversion and Data Completion Requirements

Data Completion During Fielding

- Data fields must be populated for TC-AIMS II to properly perform interface and document forms
- **How long is this going to take?**

  Unit personnel and data dependent
- **Who is going to do it?**
  - *Trained UMO with the assistance of the PBO, HAZMAT personnel, and PM data conversion team*
- **Is this a one time effort?**

  This is a 95% solution, all future effort is data maintenance
- Data completion is a prerequisite for equipment transfer to units!

Data Fields
TC-AIMS II vs. TC ACCIS

- TC-AIMS II requires additional data than that provided in TC ACCIS
  - Trailer data, i.e., trailer type, tongue weight, tongue length
  - Inherent hazards

- TC-AIMS II implements higher standard for mandatory data elements
  - Axle data
  - Bumper number, serial number
  - Pack type code, pallet ID

Training Course Prerequisite and Scope

TC-AIMS II Joint User Course (JUC)

Course Prerequisite, Effective as of 11/6/2003

Student Prerequisite An Officer or senior NCO (E-6 or above) who is appointed in writing as primary UMO

An E-5 or above who is appointed in writing as alternate UMO

Both primary and alternate must hold a secret clearance and have at least 1-year retainability in the unit.

Be computer literate

----------Special Information----------
Purpose: To provide personnel with the knowledge and skills to perform the procedures and functionalities necessary to operate the TC-AIMSII software and hardware.

Course Scope, Effective as of 11/6/2003

The course includes a system overview; and instruction on the system's Business Process Areas of Asset Management, Movement Planning, Movement Coordination, Movement Execution, and Services and AIT options associated with movement operations. Instruction is mainly hands-on training utilizing instructor-led and independent student practical exercises, demonstration, and conference (lecture) type training. Students will complete an end-of-course exam.

TC-AIMS II NET SA/DBA

Course Prerequisite, Effective as of 2/12/2003

Level 1 experience as defined by HQDA message dated 160639Z Dec 98, Subject: US Army Systems Administration Certification Training.

A System Administrator with zero to one year of experience administering the relevant operating system, formal training for the operating system and command language (Commercial or Government Courses), strong customer relation skills.

Phase one certification training: Successful completion of either A, B, or C listed below: **(A)** Three DISA CD ROM'S- INFOSEC Awareness **(B)** The Army information systems security manager ISSM) Course **(C)** The Army information systems security officer(ISSO) Course

Minimum of 1 year retainability.

Course Scope, Effective as of 2/12/2003

This course is a joint course intended for all services. The course consists of an overview, install and configure system hardware and software, establish client-server network, establish user job profiles, create user accounts, install software change packages (SCPs) and conduct system backups and resources.

ATRRS Registration Standards

- **60 Days** prior to class start – **30% filled**
  - If not, notice from TIS training coordinator to POC's
- **45 Days** prior to class start – **65-70% filled**
  - If not, notice from TIS training coordinator identifying potential consolidations or cancellations
- **30 Days** prior to class start – **100% filled**
  - If not, notice from TIS training coordinator identifying consolidations and cancellations

ATRRS Registration — ***Locked at 30 days***

- **DL accounts**
- **Enterprise accounts**
- **User profile**

establishments

On-line Training Administration

Army Training Requirements and Resources System (ATRRS)

School code: 026

School name: Transportation Information School

Why ATRRS?

- Early determination for changes to training schedules based on student load
- Provide a record that commanders can review to determine who has been
  TC-AIMS II trained
- Verify student training attendance for calculating promotion points
- Increase attendance from the 30% to 50% levels that occurred with registration at the local level

➢ Provides course information, including training requirements

- Manages class schedule
- Allocates class quotas
- Makes seat reservations
- Records student attendance

Specific class quotas to be determined during site survey
